CD 10/25 precinct changes in Travis

Ryan,

Can you swap the following precincts in Travis Co? CD 25 will still be over Statewide ORVS but McCaul won't be floating below 55 McCain (I know RedAppl has him technically above, but that's because RedAppl doesn't take into account turnout when splitting VTDs).

Thanks

Eric

Talked to Lamar last night. He's willing to give up Blanco County to CD 25 (or if you need it to Conaway to make the San Saba/Mills swap work so you don't have to split Burnet) to allow y'all a wider transit through Hays to make it look better, so long as the numbers stay the same. Just wanted to put that out there as an option for y'all.

Good luck at the hearing today.

What about trading it for Mason and Menard?

Is that fine with Conaway, last time I checked it wasn't.

Eric

Following up on an earlier conversation between Rep Hensarling and Rep Smith,

Rep Hensarling has asked for a few minor changes in the area near his home in Dallas.

He would like to retain precincts 2223, 2220 and 2202

As you know these have been placed into TX32 under the new map. We have talked with Mr. Sessions and he is agreeable to these changes.

In order to offset the population shift – we would suggest that you pull the sum of the population from those 3 precincts (5,290) out of Dallas precinct number 2149, which has a population of 5,651. This precinct resides in the new TX32 boundaries, so this seems to be the easiest and most straightforward swap.

If you see another way that is better, then we are open to that idea.

Eric, can you make these changes and shoot the modified map and new performance numbers back to Josh and me? That way we can seal this up quickly

Basically neither he nor Blake want Wharton Co. Our position is a freshman Member shouldn't be telling a more senior member which counties will or won't be in our district. Rep. Hunter will sponsor the amendment to put Wharton into 27 and we can take Colorado (since Blake is worried about Donna Campbell also, who will never run against McCaul) and some more of Bastrop, approx 20,000 and 20,000 to equal Wharton's 40,000 but he said he would only offer the amendment if Blake and Michael BOTH support the map.

Lamar is working on a borrowed blackberry and his email to us didn't go through yesterday afternoon.

Lamar would like Bexar pct 4008, (465 people); it's in CD 35 in Plan C136. It's the SA Country Club adjacent to SJS's house. Giving it to lamar should help improve ssr a fraction in CD 35. You will also have to give pct 4101 to CD 21 as well because it would be orphaned (357 people).

C147-Madden Amendment

FYI--

Congressman Sessions and Congressman Marchant will be opposing Rep. Madden's amendment C147 and will be contacting Rep. Branch and Chairman Solomons as well.

Have we been able to find out why Madden's offering it? The explanation of keeping counties/cities/precincts whole doesn't mesh with what the amendment does.

You'll have to talk to him about that; his word to me was don't touch my district. So if you have an amendment which only affects Collin County, then yes, you probably will get him on board.

Gerardo/Ryan-

Attached are two plans that should (1) improve CD 23's hispanic performance while maintaining it as a Republican district and (2) in the case of one get CD 20 to benchmark, and the other get it within 1 point of benchmark on SSVR. Could you please have them run against election performance this weekend?

Thanks

Only the AG and the Legislative Council can run those reports. We'll have them run them on Monday but there are several other issues that we are trying to address.

Gentlemen-

This is the best I could do. Only 17,360 in Maverick for CD 23. 52.4% McCain. All other districts at benchmark. Probably could get rid of all of Maverick if did Ector, but right now only districts changed are 16, 23, 28, 20, 35, 15. 20 doesn't leave bexar county, and 35 doesn't leave Bexar in the south either. Quico has not yet seen/signed off on this, but could you please run the election performance on this one (in lieu of the non-Ector one I sent Friday).

Let's discuss this morning.

Amendment to the Amendment _____ by Pena, returns Schleicher and the portion of Sutton that are currently in CD 11 back to CD 11; and moves an equivalent amount of population from Kimble County (whole) to CD 21. CDs 21 and 23 are balanced in Bexar County. Schleicher and Sutton have a closer community of interest with CD 11, and Kimble with CD 21. It also slightly improves the SSVR in CD 23.
